Art Unit: 1754

The following is an examiner's statement of reasons for allowance: US 6,764,562 (Persson et al) discloses a pyrotechnical composition comprising guanyl urea dinitramide and guanidine dinitramide. (See the Abstract.) US 6,117,255 (Blomquist '255) discloses a gas generating composition, wherein the fuel component is guanylurea dinitramide. (See the Abstract.) US 6,004,410 (Blomquist '410) discloses a gas generating composition , wherein the fuel component is guanidinium dinitramide. (See the Abstract.) However the certified English translation of applicant's foreign priority document filed in parent application S.N. 09/869,650 establishes that applicant is entitled to the filing date of such priority document, or December 30, 1998. Accordingly Persson et al and Blomquist '255 are not available as prior art , since Blomquist '255 has an effective filing date of July 22, 1999, and Persson et al has a corresponding PCT publication date of November 23, 2000, both of which dates are later than applicant's foreign priority date.
